Abhishek Awasthi

Full Stack Developer

📞 (+91) 9455066230 | 📧 abhiawasthi5696@gmail.com | 📍 Lucknow, Uttar Pradesh

Professional Summary

Detail-oriented and innovative Full Stack Developer with 3+ years of experience building and scaling web and mobile applications. Proficient in Laravel, React, Node.js, GraphQL, and Graph Databases, with a strong focus on performance, clean architecture, and user-centered design. Experienced in payment gateway integration, cloud deployment, and workflow automation. Dedicated to delivering scalable, high-quality solutions in collaborative environments.

Professional Experience

GITCS – Assam, India

Full Stack Developer | Apr 2024 – Present

- Developed a CRM platform integrating ERP and HRM modules using Laravel.

- Built APIs for a milk delivery system (Mamasmilk), including Razorpay integration and a driver app.

- Created a travel agency portal with dynamic holiday package management and an admin panel.

Codeedge – Lucknow, India

Backend Developer | Jan 2022 – Mar 2024

- Built scalable backend for the Rumble Debate app using Laravel and real-time chat features (50K+ installs).

- Developed Mayani Music streaming platform with Stripe, PayPal, and Google Pay subscription systems.

- Engineered full-stack automation workflows for Connect2Co using React, Node.js, and AWS Lambda.

Business Innovation – Lucknow, India

Web Developer | Aug 2021 – Jan 2022

- Integrated Rezlive XML API and Razorpay for a hotel booking site.

- Built a scholarship portal using Laravel, MySQL, AJAX, and developed a functional admin dashboard.
